

Florists in Florence

A light, snappy card taking and pattern matching game with enough strategy and chaos to keep it interesting.

Gameplay

In Florists of Florence you take on the role of a flower seller. Create arrangements in beautiful Florentine vases.

Draw flowers from the Flower Bag to complete Arrangements for your customers.

Match your colors, vases, and flowers to your customer tastes (personal goals) while also taking into account the seasonal trends (group goals).

Use the Greenhouse to trade for the exact flower you need, but be wary, the longer the game goes on the more chaotic the Greenhouse.

Highlights

- ❖ Pattern Matching
- ❖ Conflicting Goals
